

# STRENGTH TO ENDURE

## NEW RYERTEX S/T

THE NEXT GENERATION HIGH PERFORMANCE PHENOLIC

For over 80 years, the industry has known Ryertex as the leading phenolic material solution for bearings, bushings and wear parts used in the most demanding applications. **NEW Ryertex S/T takes that proven performance to the next level.**

- Lasts up to 5 to 7 times longer than traditional phenolics
- Significantly reduces downtime
- Fits a wide range of applications
- Performance even in the harshest environments

Gain the powerful advantages of the high performance Ryertex brand of phenolics for your application, along with WS Hampshire's 100 years of experience and expertise in non-metal material fabrication.

**WS Hampshire Inc.**  
Over 100 Years of Non-Metallic Material Fabrication
